You may include headings but they are not required. Use a 10-point space between the preceding paragraph and the heading.

The heading is centered using italicized, bolded, but not capitalized 10.5-point Times New Roman font.

Use a 6-point space between the heading and the following paragraph.

Sub-Heading Style

The sub-heading is left aligned, non capitalized, bold, and 10-point Times New Roman font.

Other Guidelines

Do not include biographical information.

Footnotes, Page Numbers, Copyright Notice

Do not include any footnotes, pages numbers, or the copyright notice. Convert all footnotes into end notes.

Graphs, Tables, Figures, Appendices

Graphs, tables, and figures must fit within the page margins (one inch all around) and match the font format (when possible). Place graphic objects near the corresponding citation in text. Leave at least 12 points between a graphic object, corresponding caption, and the text.

Bulleted and Numbered Lists

1. Start numbered lists at the left margin and indent text by 0.25”.
- Start a bulleted list at the left margin and indent the text 0.25”.

Insert a blank line between the preceding paragraph and the first list item. Similarly, insert a blank line between the last list item and the following paragraph.

An easy way to adjust the indentations of a list item in MS Word 2007/2010 is as follows:

1. Right click a list item to be adjusted.
2. Choose Adjust List Indents...
3. Change the values according to the guideline.

Session Numbers

Do not include session numbers in any part of the document.

Citing References in Body of the Paper

When including a reference in the text, a superscript numeral¹ must be inserted for the reference as listed in the References section.

References

1. The margins of the references are the same as the rest of the paper.
2. Use the Heading style for References header.
3. List and number every reference. Use the Times New Roman 10-point font. Insert no blank line after each item.
4. When referred to in the text, use a superscript numeral.
